

Rating in State-Qualified Private Plans

The Trade Act of 2002, Public Law No. 107-210 created the Health Coverage Tax Credit (HCTC) for the purchase of health coverage by certain individuals. Eligibility for the HCTC is determined on a monthly basis. For each month an individual claims the credit, whether in advance or on their federal tax return, he or she must meet certain requirements including enrollment in a qualified health plan. Only specific health plans qualify for the HCTC. A qualified health plan is one that is allowable under the HCTC legislation including three automatically qualified plan types or a state-qualified health plan. A state-qualified health plan is one that a State elects as qualified specifically for the HCTC program and must meet the legislative requirements for health insurance set forth in the Trade Act of 2002 and codified in Internal Revenue Code Section 35(e)(2).

This form should be completed by a representative of the state for the health care option you recently submitted to the HCTC program for review. Please complete this form according to the type of product your state has submitted for HCTC. The product types are outlined in item 1. If you have any questions while filling out this form, please contact Steve Finan at the Department of the US Treasury at (202) 622-1446. Thank you in advance for your participation. Once completed, please send the form back to us by fax or mail.
