

purposes of interest payable under § 6601 on any large corporate underpayment, the underpayment rate under § 6621(a)(2) is determined by substituting “5 percentage points” for “3 percentage points.” See § 6621(c) and § 301.6621-3 of the Regulations on Procedure and Administration for the definition of a large corporate underpayment and for the rules for determining the applicable rate. Section 6621(c) and § 301.6621-3 are generally effective for periods after December 31, 1990.

Section 6621(b)(1) provides that the Secretary will determine the federal short-term rate for the first month in each calendar quarter.

Section 6621(b)(2)(A) provides that the federal short-term rate determined under § 6621(b)(1) for any month applies during the first calendar quarter beginning after such month.

Section 6621(b)(2)(B) provides that in determining the addition to tax under § 6654 for failure to pay individual estimated tax for any taxable year, the federal short-term rate that applies during the third month following such taxable year also applies during the first 15 days of the fourth month following such taxable year.

Section 6621(b)(3) provides that the federal short-term rate for any month is the federal short-term rate determined during such month by the Secretary in accordance with § 1274(d), rounded to the nearest full percent (or, if a multiple of  $\frac{1}{2}$  of 1 percent, the rate is increased to the next highest full percent).

Notice 88-59, 1988-1 C.B. 546, announced that in determining the quarterly interest rates to be used for overpayments and underpayments of tax under § 6621, the Internal Revenue Service will use the federal short-term rate based on daily compounding be-

cause that rate is most consistent with § 6621 which, pursuant to § 6622, is subject to daily compounding.

Rounded to the nearest full percent, the federal short-term rate based on daily compounding determined during the month of January 1996 is 5 percent. Accordingly, an overpayment rate of 7 percent and an underpayment rate of 8 percent are established for the calendar quarter beginning April 1, 1996. The overpayment rate for the portion of corporate overpayments exceeding \$10,000 for the calendar quarter beginning April 1, 1996, is 5.5 percent. The underpayment rate for large corporate underpayments for the calendar quarter beginning April 1, 1996, is 10 percent. These rates apply to amounts bearing interest during that calendar quarter.

Under § 6621(b)(2)(B), the 9 percent rate that applies to individual estimated tax underpayments for the first calendar quarter in 1996, as provided in Rev. Rul. 95-78, 1995-49 I.R.B. 6, also applies to such underpayments for the first 15 days in April 1996.

Interest factors for daily compound interest for annual rates of 5.5 percent, 7 percent, 8 percent, and 10 percent are published in Tables 64, 67, 69, and 73 of Rev. Proc. 95-17, 1995-1 C.B. 556, 618, 621, 623, and 627.

Annual interest rates to be compounded daily pursuant to § 6622 that apply for prior periods are set forth in the accompanying tables.

**Interest rates; underpayments and overpayments.** The rate of *interest* determined under section 6621 of the Code for the calendar quarter beginning April 1, 1996, is 7 percent for overpayments, 8 percent for underpayments, and 10 percent for large corporate underpayments. The rate of interest paid on the portion of a corporate overpayment exceeding \$10,000 is 5.5 percent.

#### Rev. Rul. 96-17

Section 6621 of the Internal Revenue Code establishes different rates for interest on tax overpayments and interest on tax underpayments. Under § 6621(a)(1), the overpayment rate is the sum of the federal short-term rate plus 2 percentage points, except the rate for the portion of a corporate overpayment of tax exceeding \$10,000 for a taxable period is the sum of the federal short-term rate plus 0.5 of a percentage point for interest computations made after December 31, 1994. Under § 6621(a)(2), the underpayment rate is the sum of the federal short-term rate plus 3 percentage points.

Section 6621(c) provides that for
